

WORLD SOCIAL WORK DAY 2008 - SWEDEN

SSR celebrated World Social Action Day 15-16th of April, on the same day as we arranged our own national big event "The Social Work Days".

The Social Work Days gathered 650 swedish social workers under the theme Evidence, Empathy and Efficiency. In 50 different lectures and seminars social work was discussed. In speeches and press release we manifested the importance of social work and social workers, and stressed the fact that social workers all over the world did the same on this very day.

Sincerely
Titti Fränkel
