

Stockholm 25 april 2016

Election statement

I wish to continue being a member of the European executive since I feel there is a need for stability. I want to contribute with my experience from local, national and international level working with issues concerning strengthening social work and the social work profession. When I joined the executive my wish was for us to prioritize our tasks more. I think that we during these two years have involved more representatives in the work of the region and that has enabled the executive to work more effectively. Working with conferences has been a new experience for me and I'm very proud to have been part of making the European conferences a place where ordinary social workers present their work to peers. One of the reasons for me to run again for the executive is to continue the work with the next European conference in Reykjavik to be a part of making it even more successful than the conference in Edinburgh.

We have a growing region but at the same time we lose contact with members. With a growing region it's a challenge to attract and engage all members. I want to be a part of this challenge for the next two years.
