Young Carers Voices – International perspectives

Thursday 8th and Friday 9th June

2023 is the Commonwealth Year of Youth and with the development of the first Commonwealth Young Carers Charter, it has the potential to be a landmark year. There has also been significant progress in the recognition of the need for more young carers support in other countries around the world.

To mark these developments, young carers and organisations from around the world will be coming together across two days in June to hear the voices of young carers and organisations that are supporting them.

Book your place below.
