## Our solutions

### UniPark Project | Designing Inclusive Public Spaces

We design inclusive public spaces such as city parks where everyone can feel safe and connected.

### UniSpo Program | Connecting People Through Inclusive Sports

We foster relationships across generations, nationalities, and abilities through inclusive sports where people build mutual understanding through shared joy and play.

### HARMOS Dialogue & Academy | Cultivating a Culture of Connection

We promote dialogues across generations, nationalities, and abilities, and develop learning programs that nurture practitioners who build a culture overcoming isolation and co-creating society.

## Our Vision

Building a society without social isolation — together. We aim to create a society where everyone has a safe place to connect and live as themselves. Through the three “UNI” values — **UNIVERSAL (for everyone), UNIQUE (as yourself), and UNITY (co-creating connections)** — we nurture a culture of mutual support and belonging.

Solving Social Isolation through the Power of Connection.

## About HARMOS

HARMOS Japan Since 2025

### Inclusive Communities through Parks and Inclusive Sports

HARMOS is a social design organization in Japan that creates inclusive communities through parks and sports. Our mission is to reduce loneliness and social isolation by turning public spaces into shared, playful, and welcoming places for everyone.

## About the Founder

YUICHI AYUKAWA

**Representative Director, HARMOS  
Social Worker / Inclusive Designer**

After working in the apparel industry, Ayukawa shifted his career to the welfare field after the 2011 Great East Japan Earthquake. He founded HARMOS to design inclusive communities that reduce loneliness through parks and sports. His work connects citizens, governments, and companies to create social impact and inclusive culture across Japan.
